1

Medical and Healthcare Services

At VGE we ensure our Clients' peace of mind by facilitating their access to the best health care and medical service in Tanzania and abroad.

The services we provide

Through our vetted pool of experts, we serve as a reliable and trusted referral point to clients seeking medical attention i.e. Hospital visitations for general and specialised treatment as well as Home Based Rehabilitation and Palliative Care Services. We link our clients with Hospitals and medical experts in various specialties in Tanzania and abroad.

Medical Tourism

Vertex Group Experts acts as a bridge between the foreigners and the health facilities in Tanzania and prides itself with a fast and timely services to the patients. It offers executive treatment to all patients and assures them with all support throughout the treatment.

Physiotherapy & Nursing Care

We provide home based Physiotherapists and nursing care. We have well skilled professionals who will help your from getting the hospital and city stress of long quest at hospital and traffic jams at a lower price with high standard services at your comfort zone

Peer and Medical Counselling

With the increasing rate of mental health challenges globally, we serve as a center of refuge to facilitate our client's wellbeing through the highest level of confidentiality. We facilitate access to Telehealth counseling sessions, clinical visits, home visits and spiritual counselors tailored to our clients' unique needs. The areas targeted include but are not limited to marital counseling, financial stress, relationships (family & intimate), trauma, stress related to illness and all mental health disorders

Sports and Public Events Medical Services

The firm provides professional medical services for events such as Marathons, Charity walks and other sports as need be. These services are extended to large public events that require medical services such as First Aid, Ambulance and other services customized to fit our clients unique needs

Home based Rehabilitation & Palliative Care

We provide you with top notch and trust-worthy health professionals at the comfort of your home. Our experts plan, coordinate and deliver Multi-disciplinary home care services through co-operation with other services providers. The aim is to meet the health and social care needs of the client and his/her caregiver holistically and enhance their confidence and independence at home. The Objective is to provide good care to promote the client's health and wellbeing at home. Home care services include, but not limited to:

- i. Home rehabilitation
- ii. Home palliative care
- iii. Care giver support and training
- iv. Psychosocial and dementia support

2

Education Services

At Vertex we give special attention to our local and international students. Our programs bear in mind their varied language levels and abilities to grasp a new language. Our tutors will individually walk with you in this journey as you perfect your language skills. We pride ourselves in the quality of students we produce!

Training Institute

Language Courses

We have heavily invested in professional and customized language training courses for international languages such as French, English, Chinese and Swahili.

Our highly skilled trainers have a sound background and internationally recognized accreditations and competence in the international languages they teach.

Teenagers Guidance & Counseling Programs

With the fast-paced lifestyle of 21st Century, Vertex Group is here to mentor, guide and counsel your children in the adolescence age! Our highly skilled experts are well acquainted with the challenges of modern teens and teenagers.

3
